

Volunteer to Mentor

EMS Mentoring Program-Mentor-mentee relationships are a positive step in professional development

The Environmental Mutagen Society is launching a Mentoring Program. The intent of this program is to provide a formal structure in support of effective mentor – mentee relationships to advance the scientific careers of Society members, mentors as well as those being mentored. The Mentoring Program will enable Society members to refine specific professional skills while establishing professional and collegial relationships within the Society.

EMS Mentoring Program Leadership
